# SUMMARY

- I Trends in urban development
- II Smart city - international experiences
- III Suggestions/Recommendations for the Smart city

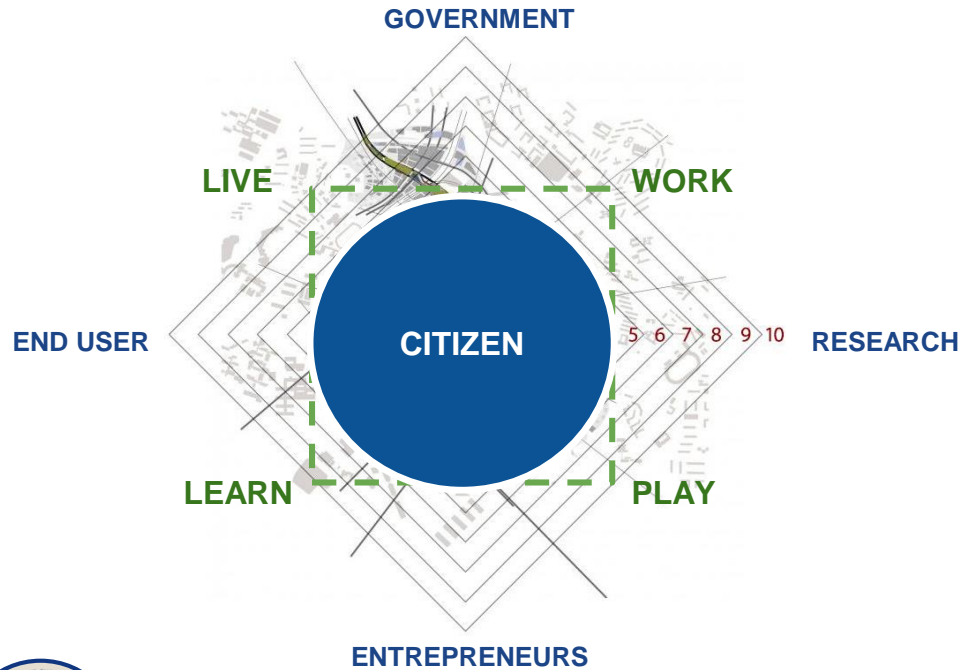

# PART I.

## Trends in urban development

# The objectives of Urban planning- People+Nature+People

Living-lab's Model

Sustainable development

# Biomimicry – Application of principle of natural ecology in development

## Biomimicry thinking

WHY, WHERE, WHEN, HOW, WHAT, WHO

SCOPING, DISCOVERING, CREATING & EVALUATING

Source: UN FCCC  
2015

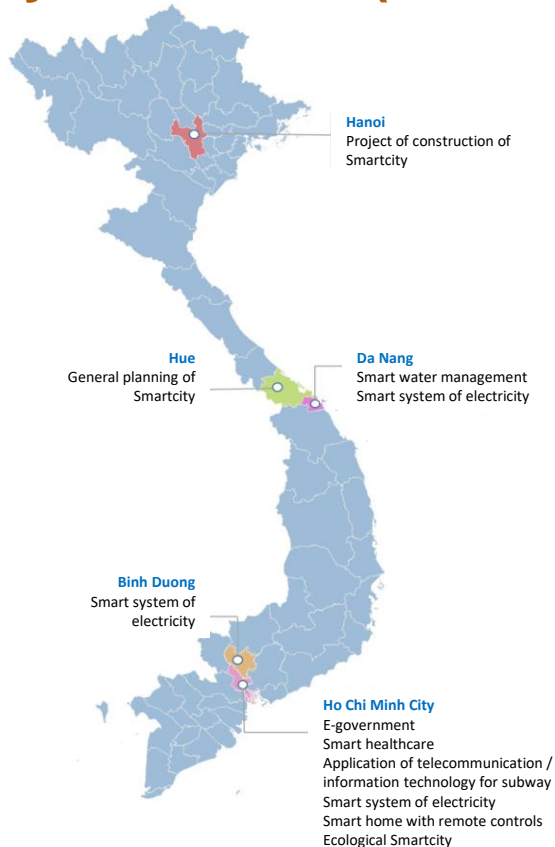

## PART II. Smart City & International experience

## Smartcity in Vietnam(SWOT)

1

### Advantages / Strengths

- Developed Technology System
- A large number of Internet users
- Young population => fast learning ability of information technology
- Advantages of the followers: gain a head start by taking a shortcut (leapfrog)

2

### Disadvantages / Weaknesses

- High rate of urbanization
- Infrastructure not developed
- Inhomogeneous and insufficient database
- Consistency and Awareness of the people are still limited

3

### Opportunities

- Harmonization between Centre and locals
- Role of the Capital in assembly of resources
- Many organizations want to implement new models of Smartcity in developing countries

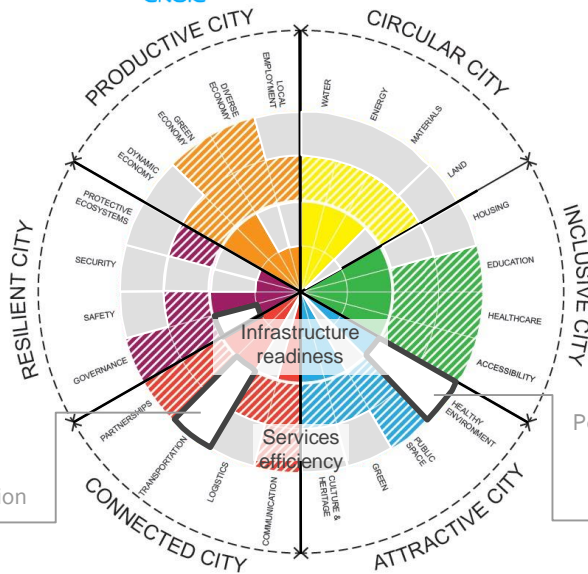

4

### Challenges

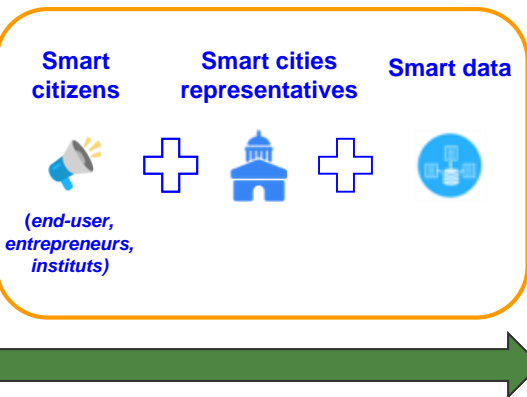

- Capacities of perception, management and performance
- Resources having abilities to respond to demands
- Harmonized and consensus strategies from locals

### 360° CITY SCAN, Tractebel

TRACTEBEL  
ENGIE

Newcastle, 2/2017

**Holistic assessment** of cities performance, fed by themselves, their citizens and data. Highlight improvement areas and strengths.

**Guide** cities through their development with the right solutions based on their profiles and need.

**Connect** cities with citizens, peers, partners to maximize their development potential

## 360° CITY SCAN, Tractebel

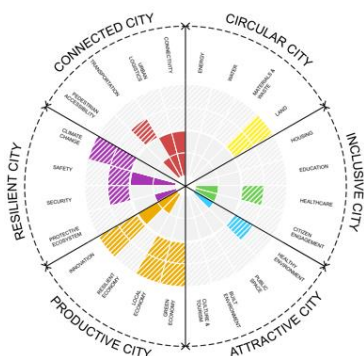

TRACTEBEL

360° city scan applied in more than 40 cities

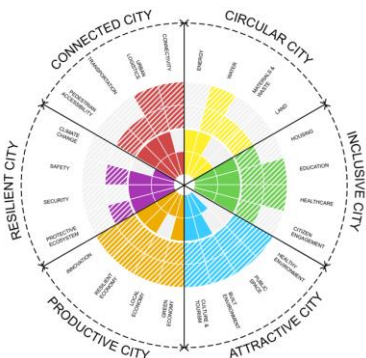

Monaco

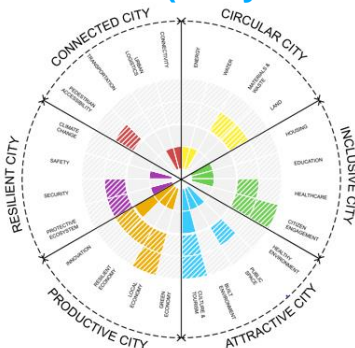

San Pedro (Ivory Coast)

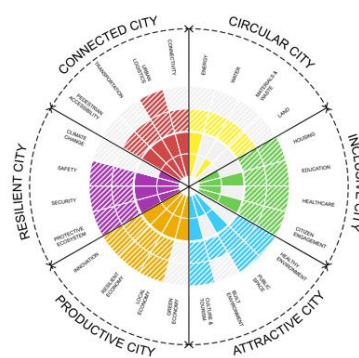

Northamptonshire, UK

London

New Delhi

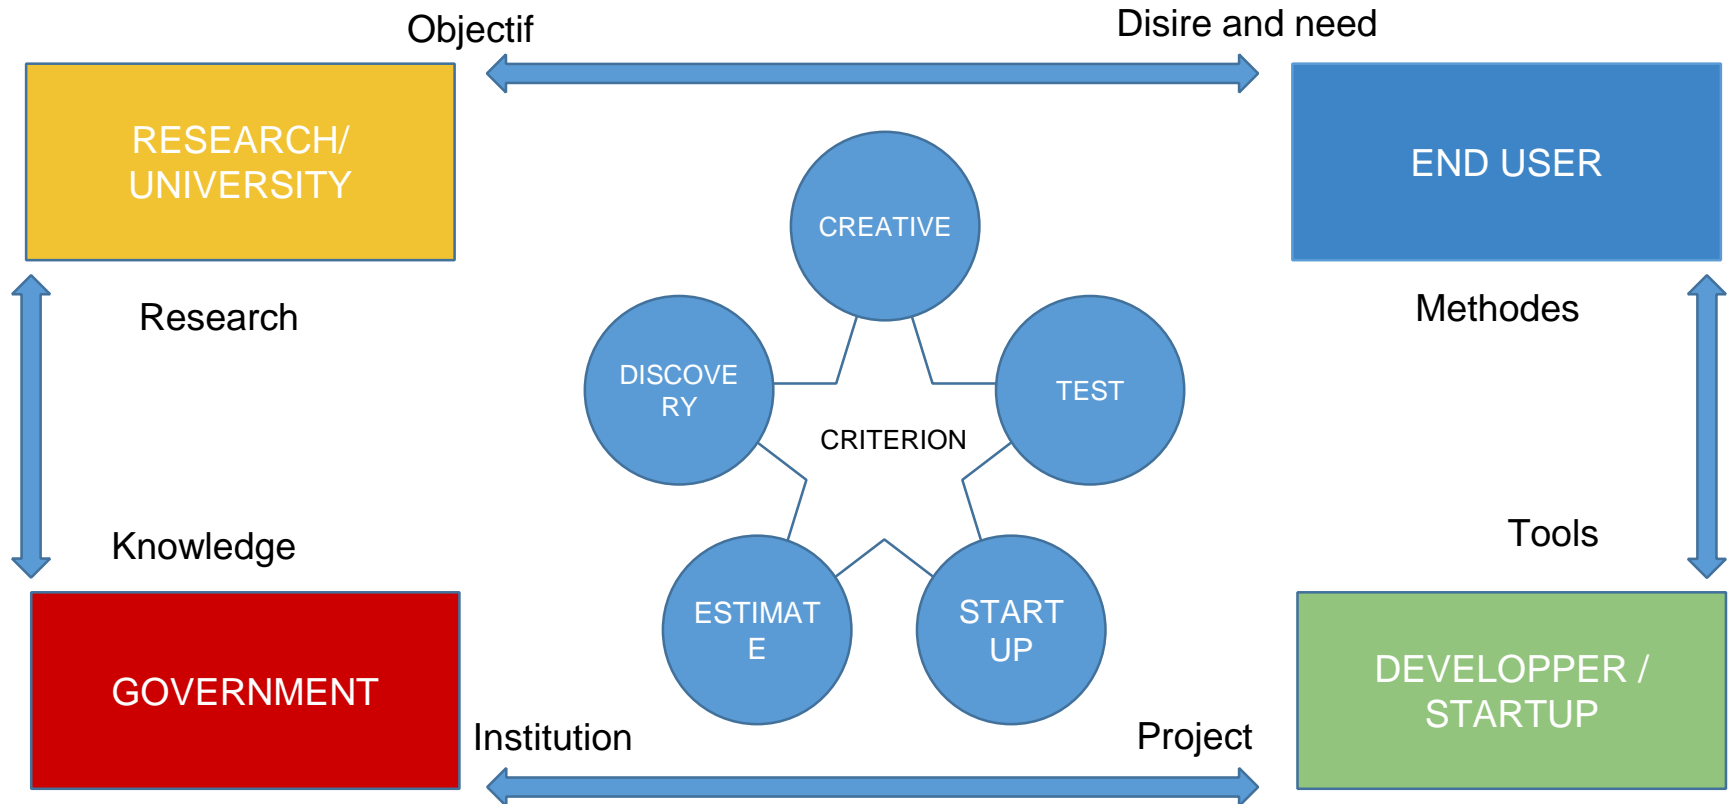

Chengdu

**Vietnamese cities?**

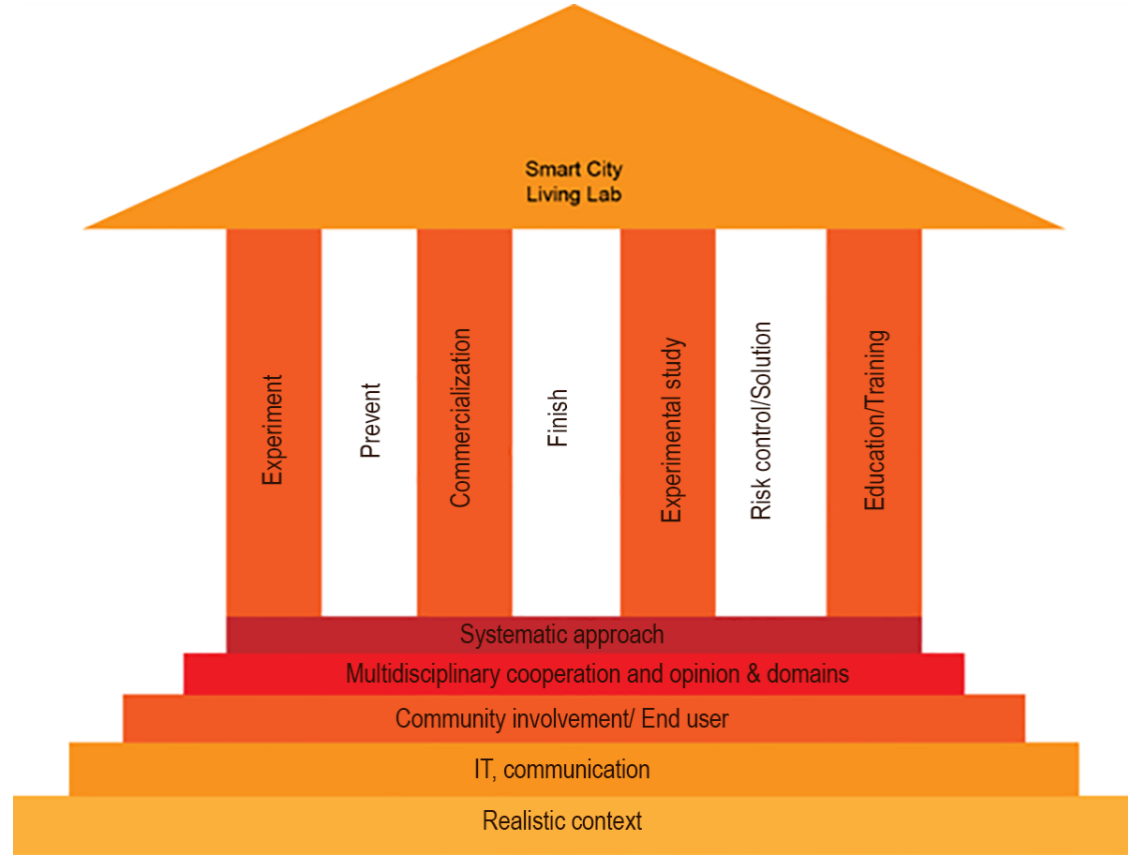

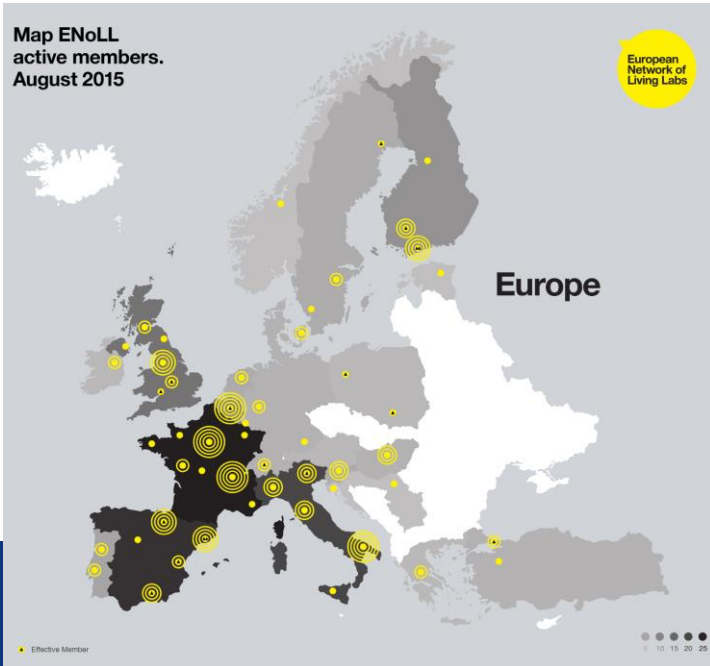

## Smart City and Living Lab

# Building Smart City using Living Lab model

*More than 150 member countries (Enoll)*

# Confluence district, a site for innovation in Lyon center-France

***“ From fallow area to most liveable district of Lyon: built a smart and sustainable city ”***

## **Project Timelines** : Making plans a reality

1995

**closing industrial area on the highly strategic site - old river port and wholesale market**

2003 - 2008

**the urban redevelopment project:**  
pretested innovations to design the city of tomorrow

2013

**most liveable district in Lyon center:** a simple, innovative and creative city,

Area **150 Ha** Population (2014) **10 000**

# Confluence in Lyon, France

*“Sustainable and smart city”*

# Smart City is the best way to build a sustainable city

## ZERO ENERGY DEVELOPMENT- (BED-ZED), UK, 2001

- 1 Zero energy
- 2 High quality
- 3 Energy efficient
- 4 *Water efficient*
- 5 Low-impact materials
- 6 Waste recycling
- 7 Eco-friendly transport
- 8 Higher quality of life

## Mục tiêu Smart City

### *“Humains and Humains Humains and Nature ”*

#### 1 Government and smart economy.

*Online services, infrastructure and open data, increase in production value and international communication*

#### 2 Environment and smart mobility

*City space planning, management of the source of energy, infrastructure and smart building.*

#### 3 Smart people and Smart Living

*Privilege Healthcare, security, culture*

## PART III. Suggestions/recommendations

# Suggestions for smart city in Vietnam and Hanoi

1

## Central level

- ***Establishing a legal framework, standards and criteria for infrastructure, data and equipment serving smart city in national level to link different regions***
- *Pilot model of smart city for research and replication*
- *Supervision principle to ensure building smart city through ranking of cities/provinces according to international criteria*
- ***Promote entrepreneurship ecosystem, small and medium-sized companies access the market to provide information technology services to the government***

2

## Local level - Building Living-lab's model & Attracting high quality human resources

- ***Building data centers and developing an open data ecosystem***
- *Ensuring network infrastructure and broadband connection & integrating products/equipments and services of city*
- ***Training human resources and experts in smart city domain, Calling overseas talents to come back and work in Vietnam & training local staffs to access new international technologies for smart city***

***“Action without vision  
is only passing time,  
vision without action  
is merely day dreaming,  
but vision with action  
can change the world.”***

**- Nelson Mandela**

## AVSE Global : Mạng lưới toàn cầu

# Our Activities

**+20** executive training programs

- **Diversified** subjects
- **Professional** experts/professors
- Prestigious partners

**7** conferences are upcoming in Vietnam

- Vietnam Digital Economy Forum
- Civil Engineering Conference
- Banking - Finance Symposium
- Sustainable Development Forum
- Offshore Engineering Conference
- Symposium in Leadership & Public Policy
- Vietnam Global Leader Forum

**10** ongoing strategic projects...

- Education Network
- Civil servants
- Van Don SEZ
- Book Translation Project
- Economic Policy...

# AVSE Global - Willing to accompany the urban planning of Hanoi

1

*Approaching the global urbanization in order to ensure regional connectivity*

2

*Participating in national projects in several domains*

3

*Linking Vietnamese and international experts*

4

*Ability to attract domestic and foreign investments*

# International conference CIGOS 5th in Hanoi:

## Innovations for a Sustainable Infrastructure

31 october & 01 november 2019

1. Hanoi - Case studies
2. Since 2010 first conference held in Ecole des Ponts et Chaussées with more than 5000 contacts
3. The meeting point for high-profile experts, researchers and high-quality papers published in Springer
4. Forum for discussion on policy between Entrepreneurs - Investors - Experts & Researcher - Organizations

## International workshop

### « International workshop: From Grand Paris Express to High speed train lines – new study cases for the Vietnam's future » Hanoi - Trimestre 4/2018

To share the real experience and solutions to Vietnam in 3 main projects:

1. The project Grand Paris Express (200 km underground line)
2. Smart city and mobility
3. High speed train lines

Grand Paris Express
